

"All I can say is I have taken more out of alcohol  
than alcohol has taken out of me"

– Sir Winston Churchill

Sir Winston Leonard Spencer-Churchill born 30 November 1874 and died 24 January 1965 was a British politician, army officer, and writer. He was Prime Minister of the United Kingdom from 1940 to 1945, when he led Britain to victory in the Second World War, and again from 1951 to 1955.

Sir Winston Churchill had mixed English and American parentage and was widely considered one of the 20th century's most significant figures. Sir Winston Churchill remains popular in the UK and Western world, where he is seen as a victorious wartime leader who played an important role in defending Europe's liberal democracy from the spread of fascism. Also praised as a social reformer and writer, among his many awards was the Nobel Prize in Literature.
