"Inspired by the curious discovery of unexpected harmony between ingredients. I wanted to bring together the elegance of Hibiki Japanese Harmony, and the soft floral sweetness of lychee honey mead. The drink represents curiosity — taking familiar flavours and giving them a new story. Every ingredient brings a different part of my inspiration, and together they create something that feels both delicate and expressive. This cocktail is a small reflection of my journey: simple at first, but with layers that reveal themselves with every sip."
